CEO's comments

2016 marked Evolution Gaming's 10th year in business and I am happy to report that we wrapped up a very successful year with a strong quarter. Sales increased by 53 percent compared with the fourth quarter of 2015. Adjusted for expenses related to the upcoming move to the main market, EBITDA amounted to EUR 13.4 million, corresponding to a margin of 39 percent and an increase of 44% compared to the fourth quarter of 2015.

Live Casino continues to strengthen its position among operators as well as players. Our focus on the quality of the user experience, offering the broadest product portfolio for all devices and delivering a leading service to our customers are some of the factors behind our strong results in 2016. The year ended with continued solid demand for our services and a very high pace of delivery. The fourth quarter is also seasonally positive with a high level of activity from our customers.

In addition to several new customers, existing customers are continuing to expand their offerings. This quarter, new dedicated environments were launched for 888, Virgin Games and bwin, among others. Existing customers are also choosing to expand into more markets where, for example, the aforementioned bwin launched its offering in Denmark during the quarter. We have also expanded further in our latest studio at Grand Casino Bucharest. Another growth driver is the heavy increase in mobile gaming – in the fourth quarter, almost half of the gaming revenues generated via Evolution's platform derived from mobile devices. The equivalent number is above 50% among our largest customers.

Extensive development is also taking place on the product side. The roll-out of Live Ultimate Texas Hold'em to operators is continuing. We have also launched another derivative of our world leading Live Baccarat product, Baccarat Control Squeeze, where the player is given even more opportunity to actively participate in the course of the game. After the end of the quarter, we have also launched an entirely new game, Dream Catcher, inspired by popular entertainment shows. It is the world's first game in the Live Lucky Wheel category, which reinforces our position as the market's prime innovator in the Live segment.

At the publishing of this report, this year's ICE, Europe's largest gaming trade fair, has just been held. As a temperature gauge on the industry, I can report that this was the most intense exhibition to date, with a very large interest in our services. Apart from premiering the above-mentioned Dream Catcher, Dual Play Baccarat was also one of our main attractions. This is our second Dual Play game, further strengthening our offer to the land-based segment.

2017 will be an exciting year for Evolution. We will continue to work according to our strategy where product innovation, regulated markets and land-based solutions are key areas. In addition to our commercial focus, we are also preparing the company for a move to Nasdaq Stockholm in the second quarter of the year.

Together with my colleagues, I want to thank you for the past year. We look forward to Evolution's continued success with confidence.

Martin Carlesund
CEO

Quarterly results trend, excluding expenses for the IPO in Q4/14 and Q1/15

Financial performance in the fourth quarter of 2016

Revenues

Revenues amounted to EUR 34.3 million (22.4) in the fourth quarter, equivalent to an increase of 53 percent compared with the corresponding period in 2015. The positive revenue development mainly derives from increased commission income from existing customers and, to a certain extent, from new customers. Revenues from dedicated tables and environments also contributed to the increase as a result of additional customers demanding customised Live Casino environments.

Expenses

Operating expenses amounted to EUR 24.2 million (14.9). Expenses were mainly driven by higher costs for personnel, connected to the launch of new tables in the company's studios. The strong expansion has also increased other operating expenses compared with the preceding quarters. Expenses of EUR 0.4 million related to preparations for the upcoming move to the main list were included in the quarter.

Profitability

Operating profit amounted to EUR 10.1 million (7.5), corresponding to an increase of 35 percent. The operating margin was 29 percent (34). The EBITDA margin was 38 percent (42). Adjusted for expenses related to the move to the main list, the EBITDA margin was 39 percent. Evolution's medium to long-term profitability target is to maintain a sustainable EBITDA margin of at least 35 percent.

Net financial items only had a marginal impact on profits and related to the interest expense on loans for the property acquired in Riga. The Group had an effective tax rate of 9.4 percent (7.4) for the quarter. The tax rate is affected by the countries in which the Group conducts its operations and thus where its profits are generated. Consequently, the effective tax rate can vary between reporting periods. Profit for the period amounted to EUR 9.0 million (6.9). Earnings per share were EUR 0.25 (0.19).

Investments

Investments in intangible assets amounted to EUR 2.6 million (2.3) during the quarter. Investments in tangible fixed assets amounted to EUR 2.4 million (1.8), where the increase is mainly due to expanded studio space at the production studios in Riga and Malta.

Investments in intangible assets refer to the development of new games for smartphones, tablets and computers and technical improvements of the platform, such as new functionality.

Investments in property, plant and equipment primarily comprised new studio space, new gaming tables, servers and other computer equipment to meet new technical requirements and maintain capacity and performance in connection with new platform launches.

Cash and cash equivalents, financing and financial position

Cash flow from operating activities amounted to EUR 14.6 million (8.6) during the quarter. Cash flow from investing activities amounted to EUR -4.9 million (-4.1). Cash flow from financing activities amounted to EUR -1.2 million (-0.3). Cash and cash equivalents amounted to EUR 26.3 million (19.9) at the end of the quarter.

Full-year summary

For the full year 2016, revenues amounted to EUR 115.5 million (76.4), corresponding to an increase of 51 percent compared with 2015. The positive revenue development mainly derives from increased commission income from both new and existing customers. Revenues from fees for dedicated tables also contributed to the increase as a result of additional customers demanding customised environments. In this connection, revenues from the start-up fees also increased in comparison with the previous year.

Operating expenses amounted to EUR 80.6 million (55.3). In the comparison year, EUR 4.0 million consisted of non-recurring expenses related to the IPO in March 2015. Excluding non-recurring expenses, expenses rose by 57 percent in the quarter compared with the previous year. Expenses were mainly driven by higher costs for personnel, connected to the launch of new tables and studios.

Operating profit amounted to EUR 34.9 million (17.6) with an operating margin of 30 percent (33). The EBITDA margin was 39 percent (41). The outcomes of the comparison periods have been adjusted for non-recurring costs of EUR 4.0 million.

Investments in intangible assets amounted to EUR 10.2 million (7.2) during the period. The Group's investments in property, plant and equipment amounted to EUR 8.3 million (4.8). Investment in buildings amounted to EUR 12.6 million (-) and is entirely attributable to the acquisition of the company's studio property in Riga.

Cash flow from operating activities amounted to EUR 41.6 million (23.8) over the year. The increase is primarily due to an improved profit. Cash flow from investing activities amounted to EUR -31.2 million (-11.9). Cash flow from financing activities amounted to EUR -4.1 million (-0.3).

Market development

In recent years, Live Casino has grown substantially in Europe and, according to data from H2GC, was expected to grow by about 30 percent in terms of gross gaming revenues in 2016. Evolution's growth objective is to grow faster than the total European Live Casino market. Market growth is influenced by several underlying factors, such as increased use of mobile phones, technological advances with, among other things, improved hardware and increased bandwidth, the migration of land-based casinos to online environments and market regulations. Growth is also driven to a large extent by Live Casino having grown in importance for most gaming operators, who consequently elect to expose and market their live offerings to customers more extensively than before.

In the absence of EU-wide or international legislation, an increasing number of European countries are introducing national regulations for online gaming. This means that the gaming operators and, in some

cases, B2B suppliers, such as Evolution, must apply for country-specific licences, conform to national laws and pay local taxes. Regulation is an important growth factor for Live Casino, because it brings more potential end-users and gives operators greater opportunities to promote the product. At the same time, new regulations can entail increased costs and other requirements that affect operations to a varying extent. As a B2B provider, Evolution is primarily indirectly affected by new legislation. The Dutch and Swedish markets are assessed to be closest in time to new regulation.

Events following the balance sheet date

Extraordinary General Meeting

On 24 January, an Extraordinary General Meeting in Evolution Group AB (publ) was held. At the meeting, Cecilia Lager was elected as a new Board Member. Accordingly, the Board will consist of Jens von Bahr (Chairman), Joel Citron, Jonas Engwall, Cecilia Lager Ian Livingstone and Fredrik Österberg for the period up until the end of the 2017 Annual General Meeting. The minutes and other materials from the Meeting are available on the Group's website.

Other

Parent Company

The Parent Company is a holding company. Operating revenues for the fourth quarter of 2016 amounted to EUR 1.8 million (0.6) and expenses to EUR 1.5 million (0.7). Operating profit amounted to EUR 0.2 million (0). There was a loss for the period in an amount of EUR 3.4 million (loss: 0.2). The Parent Company's cash and cash equivalents amounted to EUR 0.4 million (5.2) at the end of the period and equity amounted to EUR 198.6 million (213.5). No significant investments were made in intangible or tangible assets.

Employees

As of 31 December 2016, Evolution employed 3,402 (1,922) people, corresponding to 2,394 (1,338) full-time equivalents. The average number of full-time equivalents for the 2016 full-year was 1,859 (1,156).

Significant risks and uncertainties

Evolution's operations are exposed to certain risks that may have varying impact on earnings or financial position. These can be divided into industry, operational and financial risks. When assessing the Group's future development, it is important to take into account the risk factors, alongside any opportunities for profit growth.

The development of laws and regulations relating to the supply of gaming services that Evolution provides is a central risk factor for the Group's future earnings. Since most of Evolution's licensees are active in Europe, the legal situation in the EU is of particular interest and is continuously monitored and managed by the Group. Despite this, there remains a risk that, in the event of legislation being interpreted in an unfavourable or unanticipated way, Evolution's conditions for growth, profitability, and the games that may be supplied could be changed. Likewise, a favourable interpretation way could have positive impact on the Group.

For further information about Evolution's risk exposure and handling, please see the Group's Annual Report for 2015, which is available on the company's website.

Accounting policies

Evolution prepares its financial statements in accordance with the International Financial Reporting Standards (IFRS) as approved by the European Union. The Group's interim report has been prepared in accordance with IAS 34, Interim Financial Reporting. The new and revised standards, IAS 1 Presentation of Financial Statements and IFRS 13 Fair Value Measurement, have not affected the financial statements other than expanded disclosure requirements. The Parent Company uses the same accounting principles as

the Group, with the addition of the Swedish Financial Reporting Board's recommendation RFR 2, Accounting for Legal Entities.

Amounts are expressed in thousands of Euro (EUR) unless otherwise indicated. Amounts or figures in parentheses indicate comparative figures for the corresponding period last year.

Annual General Meeting 2017

Evolution's Annual General Meeting will be held on 21 April at 2:00 p.m. at Strandvägen 7A in Stockholm. Notice of the Annual General Meeting will be published on 24 March on the company's website and in Post- och Inrikes Tidningar (Swedish official gazette). The Annual Report is expected to be published on the company's website during the week commencing 20 March. Shareholders preferring to receive a hard copy can order one by e-mailing ir@evolutiongaming.com.

Dividend

The Board of Directors proposes that the Annual General Meeting resolve to transfer EUR 16.2 million (11.5) to shareholders, corresponding to EUR 0.45 per share (0.32) and 51 percent (57) of net profit respectively. Evolution has adopted a dividend policy according to which, 50% of the company's consolidated net profit is to be distributed over time, with a certain degree of flexibility in terms of the proportion distributed in dividends.

Incentive programme

The Annual General Meeting on 28 April 2016 resolved to issue a maximum of 547,000 warrants. Each warrant entitles the holder to subscribe for one new share in the company for SEK 354.20 during the period from the day after the publication of the interim report for the second quarter of 2019 until 30 September 2019.

The company's subsidiary, Evolution Malta Ltd. has subscribed for 547,000 warrants, and Evolution Malta Ltd has, in turn, transferred 366,668 of the warrants to a number of key individuals (including consultants) in the company's management and organisation. For warrants acquired at market value, the price (option premium) has been determined using the Black & Scholes valuation model, with the valuation being carried out by PwC.

In the fourth quarter, no new allocations, forfeitures, utilisation or expirations occurred.

Upcoming report dates

Interim report January-March 2017	20 April 2017
Interim report January-June 2017	20 July 2017
Interim report January-September 2017	25 October 2017

Review

This interim report has not been reviewed by the company's auditors.

The Board of Directors and the CEO affirms that this interim report provides an accurate overview of the operations, financial position and performance of the Parent Company and the Group, and describes the significant risks and uncertainties faced by the Parent Company and the companies in the Group.

The company presents certain financial measures in the interim report that are not defined under IFRS. The company believes that these measures provide useful supplemental information to investors and the company's management as they permit the evaluation of the company's financial performance and position. Since not all companies calculate financial measures in the same way, these are not always comparable to the measures used by other companies. Consequently, these financial measures should not be seen as a substitute for measures defined under IFRS. The tables below include measures not defined under IFRS.

*Since the first quarter of 2016, royalty fees that Evolution pays for rights to certain games and side bets are reported gross, and the historical operating revenues for 2016 have been adjusted accordingly.

In the above tables, key figures do not include IPO expenses and taxes associated with the latter in Q1 2015. To enable correct comparison, key figures per share for the comparison period have been recalculated taking into account the number of shares at the end of 2016.
